October Curriculum

This month the children from our pre-toddler up to pre-primary class will be studying reptiles, mammals, and which animals live on land or water or both. Our primary friends will study reptiles and mammals focusing on their habitats and what they eat. They will also continue their study about the continents and oceans. In spirit of October they will also share a unit study on the human skeleton while discussing vertebrates and intergrades.

Congratulations to Ms. Kristine for completing her NAMC Infant and Toddler Montessori certification!!

We are so proud of you!
